

PINTURAS JUNO

DATA SHEET

MISKY - MISKY

CODE: 79597

DESCRIPTION

An heterocyclic aromatic compound preparation, characterised by its active matter which are hardly water-soluble, providing an intense and prolonged broad-spectrum protection against mould and algae.

USAGE: INDOOR - OUTDOOR

It can use as additive to any type of plastic paints and coatings, to provide them with fungicide and algacide properties.

CHARACTERISTICS

- Appearance Liquid white paste.
- Density 1.10 +/-0.05 S/FR1001
- Solubility Dispersible; its active matter are almost water insoluble.

MIXTURE

Add at least one 0.125 litre container, to 15 litres of paint and shake well until ensuring that the product is evenly mixed.

OBSERVATIONS

It is important to mention that the aim of any fungicide paint is to protect surfaces from the growth of micro-organisms, not to remove them.

Therefore, adequate preparation of the substrate to be painted is essential to achieve good results.

Any damp on the walls must be removed before painting; if this is not possible, try to isolate damp from the paint coat.

In the case of fungi, algae or micro-organisms contamination, wash surfaces with water and bleach. Allow to dry and prime with **JUNOSAN** Base Cleaner.
